Creative Publications (IL). Paperback. Book Condition: New. Paperback. 132 pages. There are many books on parenting and behavior management. Most of them focus on the physical growth development or some generic solutions on what works with some children. This book is unique as it comes from a completely different perspective that opens the readers mind to new possibilities for helping children where they could not before. It is a personal exploration into what it means to be a human being and the true reasons why children act the way they do; not the adults perception of the situation. These are effective mental and physical programs that create wonderful opportunities for parents and teachers to have breakthroughs on how to teach and raise their children. The book is told as a story of a mother and teacher who feels powerless to help her children and students. She discovers a unique preschool that produces amazing results. Her own children change from being shy, crying and being disrespectful to being full of verbal communication, discipline, and more. She then uses the lessons learned to transform her problem students in her school class to become the best students. Her life is changed and so will the millions that buy this book. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
