He is given the opportunity to emigrate permanently to Mars due to his unusual ability to extrapolate correct conclusions from only few and scattered clues. En route to Mars he discovers that antigravity technology began with the Nazi regime on Earth which still exists and now controls the Moon, while Mars, and to a lesser extent Earth, are supposedly under Allied control. He receives advanced training and healing in Soviet-origin psychotronic chambers and is instructed in his overt mission, which will be a cataloguing of currently retrieved ancient Martian artifacts. He is also secretly recruited by a mysterious man who explains Gionas secret mission is to try and establish what the true purpose of the alien Greys is. Although the aliens have agreed not to have a presence on Mars, they trade advances in technology in exchange for various genetic experiments, and they have dealings with all the various human factions, including the Nazi regime on Luna. **STASIS...**
