Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Moving Loads on Railway Underbridges, Including, Vol. 1: Diagrams of Bending Moments and Shearing Forces and Tables of Equivalent Uniform Live Loads The attention of the author having been directed, some five years ago, to the tedious and unscientific methods commonly used in practice in the preparation of tables of equivalent uniform live loads for railway under-line bridges, it occurred to him that much of the labour which the application of these methods involved might be saved, and the work simplified, by a direct application of the funicular polygon. Working on these lines he has succeeded in devising a graphical method, whereby, on a single diagram, the maximum shears and the maximum bending moments and the points along the spans at which they occur can be determined with facility for a wide range of spans and for any given type-train. A full description of this method originally appeared in Engineering on September 7th, 1906, and was followed in quick succession by three other articles dealing more or less closely with the same subject. These four...
